1. Drafted letter to Senator Burnet Maybank, (D., S.C.), informing him that the application of [REDACTED] on whose behalf the Senator had written, was being considered, and promising to let him know the outcome. Letter dispatched on 19 March.

2. Received call from Mr. Murphy, Secretary to Mrs. St. George, (R., N.Y.), asking status of application of [REDACTED].

3. Talked with Mr. A. Devitt Vanech, Chairman of the President's Committee on Employee Loyalty, and was informed that copies of the report by the Committee were not available. Wrote memo to Assistant Executive Director recommending that steps be taken by the Director to secure a copy through the White House.

4. Conferred with Mr. John Adams, Chief Clerk, Senate Armed Services Committee, regarding the appearance of the Director before the Committee in connection with the merger bill. An invitation will be sent to the Director requesting his appearance and information regarding the manner in which he desires to appear. It was thought informally that the Director might place a 10 or 15 minute statement on the record, following which the Committee would go into executive session, with no record kept of the hearing. It was felt that the Committee would desire to ask detailed questions of the Director on all phases of CIG. Mr. Adams also thought that the Director might have a preliminary talk with Senator Gurney, the Committee Chairman, relative to his appearance.
